A. and Morena, D. M. (1996). Topological transport electrical measurements on biological tissue. *Science*, 277(6311), 585-589. Published online: 10.07.12 Cape Town was once again voted the best city in the world by 39,000 readers of The Telegraph. Also, Cape Town is the largest city in the Western Cape province; two large airports, such as Cape Bay and South Bay, as well as the Judy City railway station, were built on its territory. The city has many water parks, tennis courts, sports grounds, many museums, park areas, and the phenomenon of "cones" () has become popular - picking up stones in the form of cones, mostly granite. But, due to the compact location of the main business centers and developed infrastructure, Cape Town is considered the most attractive place for leisure and business meetings. Cape Town is officially recognized as a resort town. On September 4, 2003, Cape Town signed agreements with the United States and France on cooperation in the field of tourism. Since January 1, 2006, the city has become the venue for the annual Barbados Games. Now Cape Town has a well-developed economy, which is associated with diamond mining and coffee exports, but the main thing here is entertainment facilities that offer a huge range of services to the modern tourist. In recent years, the IT services industry has flourished. This is due to the fact that employers are increasingly giving preference to school graduates who have experience and skills in working on the Internet. That is why many companies have appeared in the city that specialize in providing such services. There are few people on the Internet, but many of them have their own page on the social network. Thanks to the development of tourism, many different companies have appeared in Cape Town, and competition in the service market is becoming more and more noticeable. And since the city's economy is well developed, accommodation prices become quite affordable. The country now has the lowest unemployment rate, although the total population is still 90,000 a hundred years ago. Cape Town is a center for the local industry, in particular, he actively cooperates with companies such as Hush, Hugo Boss, Globus International. Also here you can find many bars, cafes and restaurants that provide an opportunity to enjoy gourmet cuisine. All prices in the city are fixed, and they do not depend on the time of day or season. Other major centers of South Africa, where you can see high skyscrapers with many open shops, are: Durban, Orange River and Pretoria. Despite this location, it has retained its originality and charm
